Objective

Full Stack Web Developer with hands-on experience in MERN Stack, MEAN Stack, HTML, CSS, and JavaScript. Interested in building responsive and functional web applications while learning from real-world development work. Ready to contribute, learn quickly, and support team goals through consistent work and problem solving.

Skills

Programming Querying: JavaScript, HTML, CSS, ReactJS, AngularJS, SQL.

Database Management: MySQL, Relational Databases, Database Design, Data Retrieval.

Professional Skills: Problem Solving, Analytical Thinking, Business Understanding, Attention to Detail, Documentation, Communication.

Experience

Durwankur AI Lab Pvt. Ltd.

Hybrid

Software Developer Trainee

June 2026 – Present

- Contributed to the development, testing, and quality assurance of Advok AI, identifying and resolving critical bugs under strict deadlines to improve system performance and reliability.
- Assisted in prompt engineering and workflow design for Civil Suit and Criminal Case processing, improving response structure, consistency, and output quality.

Sedna Technologies

On-site

MEAN Stack Developer Intern

Jan 2026 – May 2026

- Developed a full-stack web application from scratch using MongoDB, Express.js, Angular, and Node.js, building the core backend architecture, database schemas, APIs, and authentication modules.
- Integrated RESTful services and collaborated on debugging, testing, deployment, and feature development following software engineering best practices.

Projects

BudgetBot Capital Analysis

2025

- Implemented and compared multiple machine learning algorithms (e.g., Linear Regression, Random Forest, and Gradient Boosting) to evaluate performance, optimize model accuracy, and select the best-fit model using metrics like RMSE and R^2 .
- Built an end-to-end ML pipeline for solar energy prediction and optimization.

Solar Panel Potential Estimation

2024

- Built secure data handling pipelines for storing, processing, and aggregating financial transactions with validation and error handling.
- Optimized backend workflows by integrating version control, debugging, and collaborative development practices within Agile sprints.

Splitwise Advanced Payment App

2023

- Developed a Python-based tax calculator to compute accurate tax liabilities based on income slabs and deductions.
- Improved reliability and usability through input validation and clear output formatting.

Education

Ramrao Adik Institute of Technology, D. Y. Patil University

Navi Mumbai, India

B.Tech in Artificial Intelligence and Data Science

July 2022 – Present

CGPA: 7.1/10

Certifications

- **Machine Learning Foundations** – AWS
- **Agile and Scrum Fundamentals** – edX/IBM
- **AI for Everyone** – edX/IBM
- **Project Management** – Udemy

Hobbies

Chess, Trekking, Swimming, Cooking.
